

The **Crow Workshop Series** is designed to offer free professional development opportunities to teacher-scholars. These hands-on workshops will be held on Zoom, making them accessible to people across the globe.

Workshop 02 Corpus Searches in R: Regular Expressions and Concordance Lines

In this workshop, we will work with a tagged corpus. We will go over the steps of reading in a corpus (organized as multiple text files) in R, doing searches in the corpus using regular expressions, and producing concordance lines.

Presenter: Adriana Picoral, PhD

When? December 19, 9am to 11am (Arizona Time/MST)

When is this in your time zone: <https://bit.ly/when-is-crow-02>

What to do to prepare for the workshop?

1. Download and install the **latest** R version from <https://cran.r-project.org>
2. Download and install the **latest** RStudio from <https://rstudio.com/products/rstudio/download/#download>

How to register: <https://bit.ly/crow-workshop-02>

We welcome to this workshop corpus linguists that are not yet familiar with R but interested in expanding their coding skills.
